

# Sensory Solutions

## Occupational Therapy for Children

### **Assessment Procedure**

Assessments will be completed once an ongoing treatment time has been determined for a child. The assessment will take place over the course of the first 3 treatment sessions. This will be followed by a written treatment plan and a parent meeting. If treatment is indicated, treatment sessions will follow per the arrangement made with families.

**The fee for this service is \$1,275 and is due at the time of service.**

In order to confirm the first appointment, the paperwork must be received 2 weeks prior to the first assessment date or other date determined by Sensory Solutions. Please notify the office as soon as possible if this time line is not achievable. Evaluation sessions will be postponed if the intake paperwork is not received by the deadline and subsequently, reserved treatment times may be forfeited.

Payment for services is due at the time of service and will be collected through our EMR, Jane App. A receipt will be provided at the time of payment and a superbill will be provided at the end of the month in a format that can be submitted to your insurance company for reimbursement.

A **diagnosis code or ICD 10 code** is required to pursue reimbursement for OT services. This code must be issued by your pediatrician and provided to us if you would like it to be reflected on your superbill. If you need further assistance with this, please talk to your insurance company in advance of scheduling your first appointment or contact Teri Jetter to learn more about the role that Sensory Solutions can play in your reimbursement process.

If you have any further questions, please contact us. (408) 647-2084
